TUBECOLOR®

INSIST ON THE BEST

7 YEAR WARRANTY

Tubecolor® is a complete coating system that incorporates the beauty and durability of an external powder coating with the strength and longevity of galvanised steel.

Only Tubecolor® provides the assurance that your domestic patio, carport, outdoor furniture and play equipment will still look fantastic many years after the day it was installed. Only Tubecolor® warrants against perforation, flaking and peeling.

Because we only use the highest quality polyester coatings in our leading, in-house powder coating process, Tubecolor® resists fading, chipping, peeling and cracking.

We oven bake our durable colours onto corrosion resistant, pre-galvanised Galvatube™ steel tube and hot-dip galvanised DuraGal®/ SupaGal®/Gal140® RHS.

So when you're choosing your next outdoor feature, insist on Tubecolor® - it is the only tube that's guaranteed for 7 years.

COMPLETE RANGE OF DESIGNER COLOURS

Tubecolor is available in a full range of attractive colours to blend and harmonise perfectly with the texture of brick and timber and the tones of the Australian landscape.

We understand that everyone is different, that's why Tubecolor® is now available in more than 20 different colours to suit your individual taste.

Colour Selector Guides available at:
www.tubecolor.com.

5 REASONS TO CHOOSE TUBECOLOR®

- 1 **Peace of Mind** - Tubecolor® is the only powder coated galvanised steel tube that has an exclusive warranty.
- 2 **Corrosion Resistant** - Tubecolor® is made from galvanised steel tube which has a higher galvanised coating class.
- 3 **Good Looking** - Tubecolor® is powder coated to a severe/tropical coating class providing a thick and lustrous finish.
- 4 **Investment** - Tubecolor® lasts longer because it is more resistant to fading, chipping, peeling and cracking.
- 5 **Quality** - Tubecolor® is manufactured to OneSteel's exclusive technical specification ensuring compliance with Australian Standards.
